

PORTLAND STATE UNIVERSITY
REQUEST FOR QUOTATION #20589 – eProcurement Qualification Services

Portland State University (PSU) Purchasing Rules, Policies and Guidelines allows PSU departments to use an "Informal Procurement Process" for all purchases of supplies, equipment, and trade and professional services where the estimated cost does not exceed \$100,000. The Informal Procurement Process is the solicitation of a minimum of three competitive quotes. Solicitation shall be accomplished by advertisement on the OUS Procurement Website making a request for vendors to provide a quote. A clearly documented record must be kept per the State of Oregon's records retention rules, showing the vendors contacted, their responses including quote amounts, the basis for selection, evaluation results, and any other pertinent information to the solicitation.

The posting of solicitation on the OUS Procurement Website shall serve as the primary solicitation requirements document which in conjunction with the vendors' written responses and proposals and/or quotes shall satisfy the "clearly documented record" requirement described above. Additionally, depending on the nature of the scope of work of the project and other specific project details, there may be other documented "pertinent information" required to ensure a complete and clearly documented record for the informal solicitation.

PORTLAND STATE UNIVERSITY SHALL CONSIDER VENDOR QUOTES RECEIVED AS VALID FOR ONE HUNDRED TWENTY (120) DAYS.

Emerging Small Businesses and Minority and Women Owned Businesses

PSU is committed to increasing opportunities for Emerging Small Businesses and Minority and Women Owned Businesses, and PSU strongly encourages its contractors to use these businesses in providing services and materials for PSU contracts and projects.

OVERVIEW: Portland State University procurement is highly decentralized, and allows our many departments to procure up to \$25,000 per fiscal year, per supplier, without utilizing a solicitation process for quotations and proposals.

Further, by State of Oregon statute, several purchase categories are solicitation exempt.

As a result, PSU's extensive campus colleges, schools, and departments have established individual procurement relationships with a multitude of suppliers, and buying authority on campus rests with several hundred different buyers of varying skill levels and training.

The Office of Purchasing and Contracting would like to leverage the campus spend by investing in an eProcurement system with SciQuest. SciQuest has been chosen due to its proven eProcurement success on college campuses with similar size and decentralization as Portland State University. SciQuest also has the ability, through an Ellucian software interface, to interact effectively with the University's Banner financial systems.

SCOPE OF WORK: The successful contractor will be able to analyze the University's decentralized procurement environment, along with the cost of obtaining and implementing SciQuest's eProcurement system (in whole or in part) and make a quantitative proposal (the business case) that either financially justifies PSU's return on investment in SciQuest eProcurement or quantifies why this is a poor financial fit for Portland State University that cannot be justified.

The Contractor will determine that of the several SciQuest modules available, which modules optimize the University's investment and make financial sense to purchase, and which modules cannot be financially justified within the current PSU environment.

In addition to determining the optimal business case, the Contractor will also make recommendations on how to "best" implement SciQuest, including strategies and incentives for campus eProcurement users.

The Contractor will work independently, but with the full open cooperation of the Purchasing and Contracting office to provide assistance as required, including scheduling interviews, obtaining Banner financial reports, and guiding the Contractor to the proper campus source for useful information.

MINIMUM MANDATORY REQUIREMENTS: Contractors must have extensive experience in a higher education environment analyzing data and compiling objective, quantifiable return on investment documentation and “building the business case” such that the Contractor’s work product will withstand the scrutiny of the University’s top management. This will require the Contractor to be on campus and highly interactive with campus procurement and financial representatives at all levels.

Contractors must also be experienced with SciQuest eProcurement and must have hands-on experience implementing SciQuest, preferably in a higher education environment.

In addition to detailing how you will perform the Scope of Work, please provide 3 business references that can attest to your ability to analyze data and prepare a Return on Investment proposal that meets generally accepted accounting standards. References may also attest to Contractor’s successful SciQuest implementation experience and higher education projects.

Direct, hands-on similar work experience at Portland State University, or within the Oregon University System is highly desirable!

EVALUATION CRITERIA: Any contract(s) resulting from this RFQ will be awarded based upon the evaluation criteria and methodology given in this RFQ and in accordance with the Oregon University System, PSU, and State of Oregon administrative purchasing rules and laws.

Criteria shall be evaluated per a 100 point scale as follows:

Scope: Experience determining a “business case” and return on investment.....	40 points
Scope: Hands-on experience implementing SciQuest in higher education.....	30 points
Cost: Your quotation pricing and value.....	25 points
References: Business references specific to similar projects.....	15 points
Total.....	100 points

THE EVALUATION PROCESS: All quotations received by the due time and date will be reviewed. Quotations which are not received by the deadline will not be reviewed. PSU will determine the extent to which the quotations conform to the requirements set forth herein and will be evaluated according to criteria identified in this RFQ. The following process will be used:

A.) Quotations will be evaluated for completeness and compliance with the Scope of Work requirements and the Minimum Mandatory Requirements within this RFQ, per the above point values. Contractor’s quotation will be evaluated for Contractor’s ability to provide the ‘eProcurement Qualifications Services’ at the greatest total value for PSU.

PSU reserves the right to reject those quotations that are incomplete. PSU also reserves the right to waive what are, in PSU’s judgment, minor informalities or discrepancies. Quotations considered complete will be evaluated to determine if they comply with the administrative, contractual and functional requirements of the RFQ. If the quotation is unclear, contractors may be asked to provide written clarification if it is in the best interest of PSU to do so. PSU reserves the right to reject those quotations that do not meet all requirements.

B.) Contractors may be invited to make a presentation in support of their quotation. If held, the presentations will be scheduled for the Purchasing & Contracting Office in Room 465 of the University Center Building (UCB) at PSU.

INVESTIGATION OF REFERENCES: PSU reserve the right to investigate the references and the past performance of any contractor with respect to its successful performance of similar projects, compliance with specifications and contractual obligations, its completion or delivery of a project on schedule, and its lawful payment of suppliers, sub-contractors, and workers. PSU reserves the right to reject any quotation or to reject all quotations at any time prior to PSU's execution of a contract in the event proposer's reference checks prove unsatisfactory.

CONSIDERATION OF PAST PERFORMANCE: PSU reserves the right to consider past performance, historical information and fact, whether gained from the contractor's quotation, question and answer conference, references, or any other source in the evaluation process.

QUOTATION AWARD:

The basis of any quotation award shall be the greatest total value to PSU, provided the vendor has met the Scope of Work and all mandatory requirements as defined in this quotation solicitation document. PSU does reserve the right to not award this to any of the vendors if it is in the best interest of PSU to do so.

PAYMENT/INVOICING:

Payment of vendor invoices by PSU is normally made within 30-45 days of receipt of complete and accurate invoices. The vendor is responsible for ensuring that the invoice clearly references the associated PSU Purchase Order and that all items on the invoice match those listed in the quote response. PSU will not be responsible for paying any invoices that are not complete and accurate. Vendor payment terms may not require payment in less than 30 days after receipt of invoice by PSU and any payment delinquency terms are subject to the provisions of ORS (Oregon Revised Statute) 293.462.

CHANGES AFTER AWARD/ACCEPTANCE OF QUOTE:

After award or acceptance of vendor quote, any changes in the Scope of Work or additional work otherwise unforeseen at the time of preparation of this solicitation document and subsequent award, shall be addressed in writing, and signed by authorized representatives of the parties.

BEST AND FINAL OFFER:

Pursuant to OAR 580-061-0155, PSU reserves the right to select the vendor that, in the collective opinion of the evaluation team, offers the best overall benefit, convenience, functionality and service at the best-value cost to PSU. In the event that finalist proposals do vary significantly, PSU reserves the right to conduct discussions with the finalist proposers, to accept best and final offers from those finalists, and to negotiate changes, if it's in PSU's best interest to do so.

PUBLIC RECORDS:

This RFQ and one copy of each original quote received in response to it, together with copies of all documents pertaining to the Award of a Contract, shall be kept by PSU and

shall be open to public inspection. If a quote contains any information that is considered a trade secret by the Contractor under ORS 192.501(2), each sheet of such information must be clearly marked with the following:

"This data constitutes a trade secret under ORS 192.501(2), and shall not be disclosed except in accordance with the Oregon Public Records Law, ORS Chapter 192."

The Oregon Public Records Law, ORS 192.501(2), exempts from disclosure only bona fide trade secrets, and the exemption from disclosure applies "unless the public interest requires disclosure in the particular instance." Therefore, non-disclosure of documents or any portion of a document submitted as part of a proposal may depend upon official or judicial determinations made pursuant to the Public Records Law.

Pricing information cannot be labeled a trade secret and must be open to public inspection. Contractors are requested to mark only specific pages or text in their quote considered a "trade secret" under Public Records Law. Quotes in which the entire document is marked or otherwise identified in its entirety as confidential or a "trade secret" will be rejected.

OTHER TERMS AND CONDITIONS:

In addition to all of the requirements above, Contractor shall comply with Portland State University's Standard Contract Terms & Conditions, incorporated within this document (see below).

Failure to comply with such requirements shall constitute a breach of Agreement and shall be grounds for agreement cancellation.
