2.0 INTRODUCTION AND BACKGROUND

2.01 INTRODUCTION

Procurement and Contract Services is seeking Responsive Responsible Proposers to submit Proposals for a Building Componentization and Fixed Equipment Inventory Update.

2.02 BACKGROUND

Business Affairs, Financial Accounting & Analysis prepares the Facilities & Administrative (F&A) Rate Proposal for OSU approximately once every four years. The next proposal will be presented to the Department of Health & Human Services (DHHS) – Division of Cost Analysis in San Francisco, CA on or before December 31, 2013. The F&A Rate is used as the percentage that will be included in sponsored project agreements to calculate the indirect cost or returned overhead to the University. A conservative estimate for this return is \$40M annually or \$160M for the next four-year agreement.

This proposal requests a specialized building componentization update and survey for OSU's top Organized Research buildings. OSU had a building componentization study done in 2004-05 for 11 permanent buildings plus one that was under construction. It is important to update the study that was already done plus add the information for the Kelley Engineering Building, the Linus Pauling Science Center, Kearney Hall, and OSU's portion of a collaborative capital construction project in Portland – the Life Sciences Building.

The proposed services will provide a building componentization and fixed equipment inventory(s) update of capitalized building costs added (FY 2006 – 2013) to the eleven OSU research buildings previously identified and buildings which have been completed since the initial study in 2005. The building componentization update, life analysis and fixed equipment inventories will be conducted in **specific research intensive** University owned buildings that are directly responsible for the (F&A) Building depreciation component of the calculated OSU indirect cost rate.

The results of the engagement will support the fixed asset inventory control and the financial reporting and audit policies described in GASB, FASB, AICPA and the OMB A-21 and A-110 (F&A) Indirect Cost Reimbursement Requirements. Inventory methodology should support GAAP, A-133 and the CASB audit standards. Proposer must be prepared to work and establish an engagement timeframe that is suitable to OSU Management and our reporting requirements. Proposer should be prepared to support OSU and the engagement results upon independent audit and review.

2.03 OREGON STATE UNIVERSITY

Founded in 1868, Oregon State University is a comprehensive, research-extensive, public university located in Corvallis. OSU is a member of the Oregon University System and one of only two American universities to hold the Land Grant, Sea Grant, Space Grant and Sun Grant designations. OSU is also the only Oregon institution to hold the Carnegie Foundation's top ranking for research universities, a recognition of the depth and quality of OSU's graduate education and research programs.

Through its centers, institutes, Extension offices and Experiment Stations, OSU has a presence in almost every one of Oregon's 36 counties, including its main campus in Corvallis, the Hatfield Marine Sciences Center in Newport and OSU-Cascades Campus in Bend. OSU offers undergraduate, masters and doctoral degrees through 12 academic colleges enrolling more than 25,000 students from every county in Oregon, every state in the country and more than 90 nations.

Proposer's deemed non-Responsive will be notified in Writing, identifying the reason(s) the Proposal is non-Responsive. The evaluation committee will then perform first stage evaluations on the Written Proposals based on the following evaluation criteria. Points will be given in each criteria and a total score will be determined. The maximum points available for each criterion are identified below.

<u>Evaluation Criteria</u>	<u>Points</u>
