Proposers should note that PSU has an internal campus mail system which is used to distribute all U.S. mail sent to PSU. This internal mail system sometimes experiences delays in distributing mail to campus departments and, upon rare occasion, loses mail intended for campus departments. Thus, proposers using the U.S. mail to submit their Proposals do so at their own risk.

Proposers must complete all applicable information and provide all information requested in this RFP. Failure to comply may be grounds for Proposal rejection.

Proposer shall also name its contract administrator, by stating the name, title and phone number of the person who is assigned the responsibility of answering questions and resolving problems for the proposer.

7. **Public Records:** This RFP and one copy of each original Proposal received in response to it, together with copies of all documents pertaining to the Award of a Contract, shall be kept by PSU and shall be open to public inspection. If a Proposal contains any information that is considered a trade secret by the proposer under ORS 192.501(2), each sheet of such information must be clearly marked with the following:

"This data constitutes a trade secret under ORS 192.501(2), and shall not be disclosed except in accordance with the Oregon Public Records Law, ORS Chapter 192."

The Oregon Public Records Law, ORS 192.501(2), exempts from disclosure only bona fide trade secrets, and the exemption from disclosure applies "unless the public interest requires disclosure in the particular instance." Therefore, non-disclosure of documents or any portion of a document submitted as part of a Proposal may depend upon official or judicial determinations made pursuant to the Public Records Law.

Pricing information cannot be labeled a trade secret and must be open to public inspection. Proposers are requested to mark only specific pages or text in their Proposal considered a "trade secret" under Public Records Law. Proposals in which the entire document is marked or otherwise identified in its entirety as confidential or a "trade secret" will be rejected.

8. **Information Submitted:** Proposers are cautioned that it is the proposer's sole responsibility to submit information related to the evaluation categories, and that PSU is under no obligation to solicit such information if it is not included within the Proposal. Failure by the proposer to submit such information may cause an adverse impact on the evaluation of the Proposal, including rejection of the Proposal as non-responsive.

9. **Evaluation Criteria:** Any contract(s) resulting from this RFP will be awarded based upon the evaluation criteria and methodology given in this RFP and in accordance with the Oregon University System, PSU, and State of Oregon administrative purchasing rules and laws.
10. **The Evaluation Process:** All Proposals received by the due date and time will be reviewed by an evaluation committee. Proposals which are not received by the deadline will not be reviewed by the evaluation committee. The evaluation committee will determine the extent to which the Proposals conform to the specifications set forth herein and will evaluate the Proposals according to criteria identified in this RFP. The following process will be used:
- a. Proposals will be evaluated for completeness and compliance with the requirements of this RFP. PSU reserves the right to reject those Proposals that are incomplete. PSU also reserves the right to waive what are, in PSU's judgment, minor informalities or discrepancies. Proposals considered complete will be evaluated to determine if they comply with the administrative, contractual and technical requirements of this RFP. If the Proposal is unclear, proposers may be asked to provide written clarification if it is in the best interest of PSU to do so. PSU reserves the right to reject those Proposals that do not meet all requirements.
 - b. Proposers may be invited to make an oral presentation and participate in an interview in support of the Proposal. Such presentations/interviews will be made to the evaluation committee. If held, the presentations/interviews will be scheduled.
 - c. The selection of "finalist" proposer(s) will be determined by the evaluation committee independently scoring the Proposals and then combining the scores and pricing information to determine the overall Proposal score.
 - d. The findings of the evaluation team will be summarized and the summary and award recommendation(s) will be forwarded to the PSU Contracting and Procurement Services office.
 - e. The PSU Contracting and Procurement Services office will review the recommendation and approve or reject the evaluation team's selection.
11. **Investigation of References:** PSU reserves the right to investigate the references and the past performance of any proposer with respect to its successful performance of similar projects, compliance with specifications and contractual obligations, its completion or delivery of a project on schedule, and its lawful payment of suppliers, sub-contractors, and workers. PSU may postpone the award or execution of the contract before or after Notice of Intent to Award to complete its investigation. PSU reserves the right to reject any Proposal or to reject all Proposals at any time prior to PSU's execution of a contract if proposer's reference checks prove unsatisfactory.
12. **Consideration of Past Performance:** PSU reserves the right to consider past performance, historical information and other facts, whether gained from the proposer's Proposal, question and answer conference, references, demonstrations, or any other source in the evaluation process.

13. **Reservation of Rights:** PSU has and reserves the right to refuse to enter into a contract if PSU, based upon reasonable grounds, determines that the interests of PSU would not be served. Specifically, this right may be exercised if PSU does not believe that a given proposer can perform a contract, or for any reason set forth in Oregon Administrative Rules. PSU, at its option, may give the proposer notice, specifying the grounds for rejection, and allow the proposer 15 calendar days to respond in writing.

Following such response, PSU, in its sole discretion may reject the Proposal as provided in the referenced administrative rules.

14. **Post-Selection Review & Finalists:** Unless this RFP is canceled, after PSU opens all timely-received Proposals, PSU will evaluate all Proposals in accordance with the evaluation criteria set forth in this RFP, PSU may rank the Proposals to determine the "finalist" proposer(s). Finalists will be selected based upon the highest-ranked, responsive Proposals from responsible proposers after evaluation of the Proposals according to the evaluation and selection criteria in this RFP and applicable statutes and administrative rules.

PSU reserves the right to select the Proposal(s) based on the evaluation criteria and scores identified in the RFP. PSU reserves the right to conduct discussions with the finalist proposer(s), to accept best and final offers from those finalist(s), and to negotiate changes.

After receiving the evaluation summary PSU Contracting and Procurement Services office will name one or more apparent successful proposer(s) and announce its Intent to Award to one or more of these proposer(s). Identification of the "apparent successful proposer" is procedural only and creates no right in the named proposer to award of the contract. All competing proposers shall be notified in writing of PSU's Intent to Award and the identity of the apparent successful proposer and shall be given seven (7) calendar days to review the RFP file and evaluation report in the PSU Contracting and Procurement Services office. Any questions or concerns about, or protests of, the evaluation process must be in writing and must be delivered to and received by the PSU Contracting and Procurement Services office within seven (7) calendar days after the date of the letter of Intent to Award identifying the apparent successful proposer(s).

Within a reasonable time following the end of this seven (7) day protest period, PSU will consider all protests received, if any, and may:

- a. reject the protest(s) and proceed with final evaluation of the apparent successful proposer(s) and, upon a satisfactory outcome of this final evaluation, enter into a contract with the apparent successful proposer or proposers; or
 - b. sustain a meritorious protest(s) and reject the apparent successful proposer(s) as non-responsive, if such proposer(s) is unable to demonstrate that its Proposal(s) complied with all material requirements of the solicitation and Oregon public procurement law; thereafter, PSU may name a new apparent successful proposer or proposers; or
 - c. reject all Proposals and cancel the procurement.
15. **Best and Final Offer:** Pursuant to OAR 580-061-0155, PSU reserves the right to select the proposer that, in the collective opinion of the evaluation committee, offers the best

overall benefit, convenience, functionality and service at the best-value cost to PSU. PSU reserves the right to conduct discussions with the finalist proposers, to accept best and final offers from those finalists, and to negotiate changes, if it's in PSU's best interest to do so.

16. **Negotiation of Final Contract:** PSU has found that limited negotiation of the proposed contract is sometimes required to effect a successful procurement because of their experience that proposers may desire to include in the final contract certain supplemental terms and conditions from the proposers' software license agreements, maintenance contracts, technical support agreements and other similar documents. Such negotiation may occur at PSU's discretion.
17. **Negotiable Terms and Conditions:** At such time as the disposition of any protests has been completed, PSU reserves the right to negotiate specific terms of the contract including, but not limited to: indemnification, confidentiality, intellectual property ownership and license provisions, and limitation of liability provisions, with the successful proposer(s) prior to contract execution. Proposers should note that any such negotiation shall be minimal, and should be expedited and completed by the anticipated Contract Execution Date listed in the Schedule of Events. Failure of the selected proposer(s) to execute a contract by the Contract Execution Date may result in cancellation of the award. This time period may be extended at the sole discretion of PSU.
18. **Proposer Agreements and Supplemental Terms and Conditions:** Proposers may submit proposed supplemental agreement terms and conditions of any form (contracts or documents) that the proposer desires to be incorporated as part of the contract. By accepting delivery of these items, PSU is not bound to accept them or incorporate them as part of an ensuing contract. While PSU will not consider supplemental terms and conditions that materially conflict with the provisions of this RFP, at PSU's sole discretion, PSU may choose to consider and negotiate the inclusion of such terms and conditions contained in such proposer agreements and contracts or documents reasonably related to this RFP as supplemental to PSU's Standard Terms and Conditions contained in this RFP. If the parties do not agree on the inclusion of the supplemental terms and conditions, PSU may: 1) enter into a contract with the apparent successful proposer without incorporating the terms and conditions submitted by the proposer; or (2) the submission will be considered non-responsive and PSU may enter into a contract with another responsive proposer. Any respondent that desires to have terms and conditions negotiated must submit the terms and conditions that are to be considered for negotiation at the time of submission of the Proposal. PSU will not consider any terms and conditions that are not submitted with the Proposal.

SECTION 2: SCOPE OF WORK

I. BACKGROUND AND PURPOSE OF THIS RFP:

The Collaborative Life Sciences Building (the “CLSB”) is jointly owned by the Oregon University System (“OUS”) and Oregon Health and Sciences University (“OHSU”) and will place portions of OHSU, Oregon State University (“OSU”) and Portland State University (“PSU”) under one roof. In doing so, the facility will expand partnerships between the universities, expand their teaching facilities, class sizes, research activities and create new employment opportunities.

The 500,000 square foot OHSU/OUS Collaborate Life Sciences Building and OHSU Skourtes Tower (collectively, the “Project”) will include lecture halls, classrooms, labs, specialty research centers, OHSU School of Dentistry facilities, and offices for health professionals and undergraduate and graduate education involving students and instructors from multiple institutions.

The purpose of this RFP is to procure Leica microscopes and accessories to be used in the CLSB by the PSU Biology department. PSU anticipates that pricing submitted will be well below current discount rates. PSU expects pricing submitted by Proposer’s to remain fixed for the term of the project (through December 31, 2014).

IV. MINIMUM MANDATORY REQUIREMENTS:

The following are the minimum **MANDATORY** requirements that must be met by vendors submitting a Proposal. Compliance with these requirements must be clearly indicated and the extent of compliance described in detail in the vendor’s Proposal. Failure to meet any of these requirements may result in rejection of vendor’s Proposal by PSU:

A. Mandatory Requirements Table for the Leica DM500 Microscopes

All Leica DM500 Microscopes shall meet the mandatory requirements listed in the table below. Proposer’s shall include the Mandatory Requirement table below with their Proposal and describe all deviances from the listed Mandatory Requirement. Proposer must indicate “Y” for “Yes” and “N” for “No” for each Mandatory Requirement listed in the table below.

Mandatory Requirements for the Leica DM500 Microscopes	Proposer must indicate “Y” for “Yes” and “N” for “No” for each Mandatory Requirement
1. The microscope stand must be wider than the focus knobs and stage. This protects the focus knobs and stage when storing side by side. Also offers a bit more stability and helps reduce vibrations.	
2. Must include the Ezstore feature (or similar) that offers a vertical handle plus an undercut in the front of the stand for easy and safe carrying.	
3. Must include a vertical cord socket within the recessed cord wrap, preventing the cord from pulling out easily, and reducing the space required for storage.	

Mandatory Requirements for the Leica DM500 Microscopes	Proposer must indicate "Y" for "Yes" and "N" for "No" for each Mandatory Requirement
4. Must include a 100x dry (non-oil) objective. This eliminates the mess of oil in the lab, and eliminates the problem of the 40x dry objective being dragged through the oil on the slide.	
5. Must allow for easy one handed slide loading.	
6. The stage travel must be 26mm X 76mm, which always allows complete viewing of the slide	
7. The stage must have rounded edges. This is a safety feature, as it is not possible to scratch the skin	
8. The condenser shall be prefocused and precentered, with no need to adjust.	
9. The focus mechanism shall be all brass, fully enclosed, and self-adjusting. No need to adjust over time, and the brass components are more durable than plastic.	
10. Must have the capability to add at any time to the microscope, an intermediate 3.3MP camera module, as the intermediate location, (between the stand and the binocular), eliminating the need to have a trinocular head with a photoport and c-mount. The camera shall have the ability to be operated with a computer or stand alone, with the ability to capture images to an SD memory card and output to an analog video monitor	
The stand shall include an anti-microbial treatment, minimizing the opportunity to transfer bacteria from person to person. This treatment shall be done in the manufacturing process, no chemicals involved.	
12. Must have the option for a flat top intermediate module, allowing the microscope to be upgraded to reflected light bright field or fluorescence illumination and multi-view units.	
13. Must have LED illumination offering 6000K color temperature so no blue filter is needed.	
14. LED illumination must offer 25,000 hours of bulb life when used at the highest intensity, and the LED shall be powerful enough to be used at the lowest intensity (where in testing the bulb life can last up to 50,000 hours).	
15. Must include a 45 degree binocular viewing tube that has fixed diopters for corrected vision and includes foldable rubber eyeguards to protect eyeglasses. All eyepieces shall be high eyepoint to allow eyeglasses.	

Mandatory Requirements for the Leica DM500 Microscopes	Proposer must indicate "Y" for "Yes" and "N" for "No" for each Mandatory Requirement
16. Must have a captive thumbscrew to allow safe rotation of the viewing tube.	
17. Must have the ability for user to perform simple polarization with a simple analyzer and polarizer.
