

UNIVERSITY OF OREGON

RFQ for Design Services – OUS Retainer Consultants Only

Date: March 20, 2014

Project: East Utility Tunnel Structural Improvements – CP13-102

Scope of Work:

Provide Civil, Structural, Mechanical and Soils Engineering for required structural improvements to the East Utility Tunnel at the University of Oregon. The following work to the tunnel that runs underneath Franklin Boulevard will constitute the scope of construction work to be performed. Work will consist of the installation of a pumped grouting system to fill voids on the exterior of the metal culvert tunnel, the installation of concrete reinforcing along the lower flanks of the tunnel complete with rebar and the installation of a Cathodic Protection System to increase the resistance of the existing steel tunnel shell to resist further corrosion. The implementation of this work will also require the removal and reinstallation of 24 inch insulated chilled water supply and return lines, their insulation and support system. It may require the relocation of some electrical and communication conduit and wiring as well.

Schedule of Work:

Design Work to commence immediately upon execution of the contract with Construction Documents and bidding complete by September 1, 2014.

Construction Cost:

Direct Construction cost is estimated at approximately \$1.5M.

Consultant Fees:

Fees will be negotiated after selection of most qualified team.

RFQ requirements:

Submit 2 stapled written copies and 1 electronic copy of your qualifications associated with the above stated project scope. Proposal shall be no longer than 8 single sided pages or four double sided pages. Resumes and a cover page do not count against the page count. Proposals shall contain fonts no smaller than 11 point. Cover page should contain name of the lead firm, contact name, phone number and E-mail for firm contact representing the project. Provide your Qualifications in the following format.

Section 1 – Proposed project team.

Provide identification of project team members including company name, individuals involved in the project and the roles each member will take.

Section 2 – Experience

Provide examples of project experience on projects of a similar nature to this project. Project experience should be reflected in the experience of the staff being proposed. Provide the name of the Owner of the project, a description of the project and how the scope is similar to our project.

Submission Timeline:

Advertisement Date: 3/20/14

Proposals Due: 4/08/14 @ 4:00 pm

Proposal Review Complete: 4/14/14

Notification of selected team: 4/15/14
