2.0 INTRODUCTION AND BACKGROUND

2.01 INTRODUCTION

Procurement, Contracts, and Materials management is seeking Responsive Responsible Proposers (“Proposers”) to submit Proposals to provide goods and services for a Parking Management System at the Oregon State University-Cascades campus (“OSU-Cascades” or the “University”) located in Bend, Oregon, in response to this Request for Proposals (“RFP”).

OSU-Cascades is preparing to open a new 4-year university and anticipates opening the new college campus in Fall 2016. OSU-Cascades is soliciting for a comprehensive Parking Management System to manage vehicle parking at the new Bend, OR campus.

The initial phase will include construction of three (3) new buildings on an approximately 10-acre site, located at 1500 SW Chandler Avenue in Bend. Construction began summer 2015. **There will be 262 on-site parking spaces, 39 private roadway parking spaces and 21 public street parking spaces associated with the new campus.** Please see Exhibit D for more details. These parking spaces will be constructed in the first phase of construction, and are anticipated to be complete in Fall 2016. The parking spaces will serve students who live on and off campus as well as campus visitors. Remote parking lots may be added at a future date.

Current facilities being constructed (scope covered under this solicitation)

1) Academic Building (Scheduled Completion Fall 2016)

The academic building will consist of three floors of classroom and laboratory space, spread over approximately 43,300 gross square feet. The building is being designed by Boora Architects and will be constructed through a construction manager/general contractor (“CM/GC”) contract by Fortis Construction Company.

2) Dining and International Learning (Scheduled Completion 2016)

The dining and international learning center will consist of two floors of space; the first floor will include a kitchen, seating space, and administrative offices; the second floor will house classroom and office space. This building will measure 27,470 gross square feet.

3) Residence Hall (Scheduled Completion 2016)

The residence hall will consist of four floors of living space for students. This building will measure 82,700 gross square feet.

The parking management system will not be implemented at the Graduate and Research Center (GRC) at this time, however future expansion to the facility is likely.

Graduate and Research Center (“GRC”) (Existing Facility)

Additionally, OSU-Cascades’ owns the Graduate and Research Center (“GRC”), located at 650 SW Columbia Street in Bend, and anticipates growing to accommodate a total of 3,000 to 5,000 students at full capacity.

2.02 BACKGROUND

OSU-Cascades is seeking Proposals for a parking management system to manage parking permit distribution and payment, as well as monitor parking use at the University’s parking lots. **It is OSU-Cascades intention that the successful Proposer shall provide system hardware to the General Contractor in charge of the current building construction and be onsite to supervise the installation of their product.** All remaining aspects of the system set-up shall be the responsibility of the successful Proposer.

OSU-Cascades wishes to implement a parking management system where fees for parking are contingent on the actual duration that a vehicle is parked. Additionally, OSU-Cascades desires a parking management system with the capability to adjust parking rates based on the time of day, so that rates can be increased during periods of high demand, and rates can be decreased during periods of lower demand. Due to various conditions of approval stipulated by the City of Bend, OSU-Cascades must monitor parking utilization on a daily-basis, both on-site and within ¼ mile of the perimeter of the campus. Although not a requirement of the System, OSU-Cascades will consider systems that can be expanded to include these areas on city streets.

For the purpose of clarity, in this Request for Proposal OSU-Cascades is only asking for pricing that includes the provision of a parking system on-campus. However we would encourage vendors to also provide unit pricing for expansion to off campus street parking.

2.03 OREGON STATE UNIVERSITY

Founded in 1868, Oregon State University is a comprehensive, research-extensive, public university located in Corvallis. OSU is one of only two American universities to hold the Land Grant, Sea Grant, Space Grant and Sun Grant designations. OSU is also the only Oregon institution to hold the Carnegie Foundation's top ranking for research universities, a recognition of the depth and quality of OSU's graduate education and research programs.

Through its centers, institutes, Extension offices and Experiment Stations, OSU has a presence in almost every one of Oregon's 36 counties, including its main campus in Corvallis, the Hatfield Marine Sciences Center in Newport and OSU-Cascades Campus in Bend. OSU offers undergraduate, masters and doctoral degrees through 12 academic colleges enrolling more than 26,000 students from every county in Oregon, every state in the country and more than 90 nations.

3.0 SAMPLE TERMS AND CONDITIONS

3.01 SAMPLE TERMS AND CONDITIONS

The proposed contractual terms and conditions are included at Exhibit A. Proposers should provide pricing based on terms provided within this Exhibit. If there are any objections to these terms please provide specific information related to that objection before the cut-off date for clarification requests stated in Section 1.01 'SCHEDULE OF EVENTS.'

4.0 PROPOSER QUALIFICATIONS / SYSTEM CAPABILITIES

4.01 MINIMUM QUALIFICATIONS

In order to qualify as a Responsive Proposer, the Proposer needs to meet the minimum qualifications below.

- a. Proposer must show successful implementation of a system of similar size and scope within the last 5 years.

4.02 DESIRED SYSTEM CAPABILITIES

A Proposers Parking Management System should include the following capabilities for evaluative purposes:

a. Tracking / Reporting Capabilities

- Flexible models to charge for parking based on the actual duration of time a vehicle is parked or other strategies to maximize utilization. (The maximum amount of flexibility is desired.)
- Ability to adjust parking rates based on times of higher-than-normal demand or lower-than-normal demand.
- Ability to keep track of vehicle/user violations.
- Ability to incorporate wireless (Radio Frequency Identification ("RFID") or similar) monitoring of permit holders that are on campus. The monitoring must track when a permit holder enters a parking lot, or a parking space, and exits, so that the permit holder can be appropriately billed and so that records of aggregate parking utilization can be maintained;
- Ability to provide historical usage rates, real-time information about number of spaces occupied and parking by non-permitted vehicles.
- Ability to provide integration with a mobile/open source Transportation Demand Management application – e.g. track vehicle miles traveled by SOV, bike, etc.
- Include software for administrators to collect and analyze parking data for the entire campus system.
- Ability to monitor non-permitted vehicles by either:
 - o Identify the location of parked vehicles that do not display a valid permit upon entry into the

parking lot or a parking space,
and/or

- o Incorporate a method for a parking attendant to electronically read an individual permit (using a handheld unit that is part of the System) to determine if a permit is valid.

b. Payment Capabilities

- Ability to accept payments for permit holders (online, mobile app or at a service desk).
- Ability to accept payment for visitors (at a service desk, mobile app or a kiosk).
- Ability to accept payment for parking violations (at a service desk, mobile app or online).
- Proposers should provide information as to how their system will provide security for personal information.

c. User Volume/Utilization/Feedback Capabilities

- Ability to issue permits for 3,000 users initially, and be capable of expansion
- Ability to distribute guest passes. Distribution may be facilitated using an automated machine or at a desk location. Ideally, a visitor will pay at a kiosk (or via cellular phone) and provide a parking space number, so the visitor is not required to return to the vehicle. Once a visitor has paid, the system must update to show the parked vehicle is valid.
- Ability to assign multiple passes to a single user
- Ability to provide user feedback to: inform permit holders of a low balance, summarize parking usage, recommend cost savings or incentives – based on user behavior, and provide real-time information on parking availability.

4.03 PREFERRED QUALIFICATIONS

OSU will award additional points for Proposers able to meet the preferred qualifications below.

- a. Past implementation of a system of similar size and scope for a higher education institution.
- b. Vendor has the capability to provide supplementary services such as parking attendants.

4.04 PREFERRED SYSTEM CAPABILITIES

OSU may award additional points for Parking Management Systems that are capable of any additional functions not considered in this RFP, including but not limited to the following:

- a. Development of analytics to help set pricing rates;
- b. Real-time and historic information regarding availability of parking spaces that can be provided to users; and
- c. Integration with other parking management hardware/software systems (either by the same manufacturer or other) that may be located on neighboring facilities, such as public streets. Such systems are only hypothetical at this time. OSU requests that the proposer provide a list of the manufacturer offerings they support and their integration capabilities.

4.05 SYSTEM IMPLEMENTATION PLAN

Proposers need to have a system implementation plan that addresses the following elements:

- a. Infrastructure and personnel necessary to install the System.
- b. Number of personnel (University staff and contractors) necessary to operate and maintain the System.
- c. Estimated hours required by University staff and contractors for system installation and training
- d. Ability for the system to be expanded onto other University-owned parking facilities.
- e. Ability for the system to be expanded onto public streets within ¼ mile of the University (as shown in Exhibit E – On Street Parking Map).
- f. Estimated amount of time required to implement your system.

6.0 EVALUATION

6.01 EVALUATION

The stages of review and evaluation are as follows:

- a. Determination of Responsiveness:
OSU will first review all Proposals to determine Responsiveness. Proposals that do not comply with the instructions, that are materially incomplete, that do not meet the minimum requirements, or that are submitted by Proposers who does not meet minimum qualifications may be deemed non-Responsive. Written notice will be sent to Proposers whose Proposal is deemed non-Responsive identifying the reason. A Proposer has the right to appeal the decision pursuant to OSU Standard 580-061-130(5).
- b. First Stage Evaluation:
Those Proposals determined to be Responsive will be evaluated using the required submittals. Proposals will be scored based on the evaluation criteria listed below, in Section 5.02. Scores will be used to determine Proposers within a competitive range. The competitive range will be made of Proposers whose individual scores, when viewed together, form a group of the highest ranked Proposers above a natural break in the scores.

OSU reserves the right to ask follow-up questions of Proposers during first stage evaluations. The questions will be for the purpose of clarification of information already contained in submittals and not be an opportunity to submit additional documentation or change existing documentation.

OSU may award after the first stage evaluation to the highest ranked Proposer without moving on to the second stage evaluation. If this option is selected, Written notice of intent to award the Contract to the highest ranked Proposer will be provided to all Responsive Proposers, or an award may be made directly without notice of intent in those instances of a single Responsive Proposer.

c. Second Stage Evaluation:

If award is not made after the first stage evaluation, OSU may choose any of the following methods in which to proceed:

- i. Issue a Written invitation to Proposers within the competitive range requesting an interview, presentation, site visit or any other evaluative method that is relevant to the goods or services solicited in the Request for Proposal. Written invitations will contain the evaluation criteria and scoring that will be used by the evaluation committee.
- ii. Engage in oral or Written discussions with and receive best and final Proposals from all Proposers in the Competitive Range or all Proposers submitting Responsive Proposals. Discussions may be conducted for the following purposes:
 - Informing Proposers of deficiencies in their initial Proposals;
 - Notifying Proposers of parts of their Proposals for which OSU would like additional information; or
 - Otherwise allowing Proposers to develop revised Proposals that will allow OSU to obtain the best Proposal based on the requirements set forth in this Request for Proposal.

The conditions, terms, or price of the Proposal may be altered or otherwise changed during the course of the discussions provided the changes are within the scope of the Request for Proposal. Best and final Proposals will be scored based on the evaluation criteria listed below.

Points awarded in the first stage evaluation will not be carried to the second stage evaluation. If a second stage evaluation of all Proposers does not produce an award that is in OSU's best interest, OSU may return to the first stage evaluation to advance additional Proposers to a second stage evaluation.

d. Additional Stages of Evaluation:

If after completion of the second stage of evaluation, an award is not made, OSU may add another stage of evaluation using any of the methods outlined in the second stage evaluation above.

6.02 EVALUATION CRITERIA

Points will be given in each criteria and a total score will be determined. The maximum points available for each criterion are identified below.

<u>Evaluation Criteria</u>	<u>Points</u>
Minimum Qualifications/Desired System Capabilities	50
Implementation Plan	20
Preferred Qualifications & Preferred System Capabilities	10
Cost	20
Total	100

Proposers should show how they will meet the following criteria:

Pricing Calculation:

The Proposal that contains the lowest price to OSU will receive the maximum number of price points. A Proposal whose price is higher than the lowest submitted price will receive proportionately fewer price points, as demonstrated in the example below.

- Proposer A's price is \$450 (the lowest)
Proposer A is awarded 20 price points (the maximum)
- Proposer B's price is \$500
Proposer B is awarded 18 price points (450/500 x 20)

In the event of a discrepancy between unit prices and extended (arithmetically calculated) prices, unit prices will prevail over extended prices.

6.03 NEGOTIATIONS

OSU may commence serial negotiations with the highest ranked Proposer or commence simultaneous negotiations with all Responsive Proposers within the competitive range. OSU may negotiate:

- a. The statement of Work;
- b. The Contract price as it is affected by negotiating the statement of Work; and
- c. Any other terms and conditions as determined by OSU.

6.04 INVESTIGATION OF REFERENCES

OSU reserves the right to investigate and to consider the references and the past performance of any Proposer with respect to such things as its performance or provision of similar goods or services, compliance with specifications and contractual obligations, and its lawful payment of suppliers, subcontractors, and workers. OSU may postpone the award or execution of the Contract after the announcement of the notice of intent to award in order to complete its investigation.

6.03 CONTRACT AWARD

Contract will be awarded to the Proposer who, in OSU's opinion, meets the requirements and qualifications of the RFP and whose Proposal is in the best interest of OSU. If a successful Contract cannot be completed after award, OSU may conclude contract negotiations, rescind its award to that Proposer, and return to the most recent RFP evaluation stage to negotiate with another Proposer(s) for award.

7.0 INSTRUCTIONS TO PROPOSERS

7.01 APPLICABLE STATUTES AND RULES

This Request for Proposal is subject to the applicable provisions and requirements of the Oregon Revised Statutes, Oregon Administrative Rules, and OSU Policies and Procedures.

7.02 COMMUNICATIONS DURING RFP PROCESS

In order to ensure a fair and competitive environment, direct communication between OSU employees other than the Administrative Contact or other PCMM representative and any party in a position to create an unfair advantage to Proposer or disadvantage to other Proposers with respect to the RFP process or the award of a Contract is strictly prohibited. This restricted period of communication begins on the issue date of the solicitation and for Proposer(s) not selected for award ends with the conclusion of the protest period identified in OSU Standard 580-061-0145(3) and for Proposers(s) selected for award ends with the contract execution. This restriction does not apply to communications to other OSU employees during a Pre-Proposal conference or other situation where the Administrative Contact has expressly authorized direct communications with other staff. A Proposer who intentionally violates this requirement of the RFP process or otherwise deliberately or unintentionally benefits from such a violation by another party may have its Proposal rejected due to failing to comply with all prescribed solicitation procedures. The rules governing rejection of individual solicitation responses and potential appeals of such rejections are at OSU Standard 580-061-0130.

7.03 MANUFACTURER'S NAMES AND APPROVED EQUIVALENTS

Unless qualified by the provision "NO SUBSTITUTE" any manufacturers' names, trade name, brand names, information and/or catalogue numbers listed in a specification are for information and not intended to limit competition. Proposers may offer any brand for which they are an authorized representative, which meets or exceeds the specification for any item(s). If Proposals are based on equivalent products, indicate in the Proposal form the manufacturers' name and number. Proposers shall submit with their Proposal, sketches, and descriptive literature, and/or complete specifications. Reference to literature submitted with a previous Proposal will not satisfy this provision. Proposers shall also explain in detail the reason(s) why the proposed equivalent will meet the specifications and not be considered an exception thereto. Proposals that do not

comply with these requirements are subject to rejection. Proposals lacking any written indication of intent to provide an alternate brand will be received and considered in complete compliance with the specification as listed in the RFP.

7.04 REQUESTS FOR CLARIFICATION OR CHANGE

Requests for clarification or change of the Request for Proposal must be in Writing and received by the Administrative Contact no later than the Deadline for Request for Clarification or Change as specified in the Schedule of Events. Such requests for clarification or change must include the reason for the Proposer's request. OSU will consider all timely requests and, if acceptable to OSU, amend the Request for Proposal by issuing an Addendum. Envelopes, e-mails or faxes containing requests must be clearly marked as a Request for Clarification or Change and include the RFP Number and Title.

7.05 ADDENDA

Only documents issued as Written Addenda by PCMM serve to change the Request for Proposal in any way. No other direction received by the Proposer, written or verbal, serves to change the Request for Proposal. Addenda will be publicized on the OSU procurement website. Proposers are advised to consult the OSU procurement website prior to submitting a Proposal in order to ensure that all relevant Addenda have been incorporated into the Proposal. Proposers are not required to submit Addenda with their Proposal. However, Proposers are responsible for obtaining and incorporating any changes made by Addenda into their Proposal. Failure to do so may make the Proposal non-Responsive, which in turn may cause the Proposal to be rejected.

7.06 PREPARATION AND SIGNATURE

All Required Submittals must be Written or prepared in ink and signed in ink by an authorized representative with authority to bind the Proposer. Signature certifies that the Proposer has read, fully understands, and agrees to be bound by the Request for Proposal, Terms and Conditions, all Exhibits and Addenda to the Request for Proposal.

7.07 PUBLIC RECORD

Upon completion of the Request for Proposal process, information in all Proposals will become subject records under the Oregon Public Records Law. Only those items considered a "trade secret" under ORS 192.501(2), may be exempt from disclosure. If a Proposal contains what the Proposer considers a "trade secret" the Proposer must mark each sheet of information as such. Only bona fide trade secrets may be exempt and only if public interest does not require disclosure.

7.08 SUBMISSION

Proposals must be received in the PCMM office no later than the Proposal Due Date and Time; it is the Proposer's responsibility to ensure that the Proposal is received prior to the Proposal Due Date and Time indicated in this RFP, regardless of the method used to submit the Proposal. It is highly recommended that the Proposer confirms receipt of the email with the Administrative Contact noted above or by calling 541-737-4261. The Administrative Contact may open the e-mail to confirm receipt but will NOT verify the integrity of the attachment(s), answer questions related to the content of the Proposal, or address the overall Responsiveness of the Proposal.

The package or envelope should be addressed to the Administrative Contact. It is highly recommended that the Proposer confirms receipt of the Proposal with the Administrative Contact prior to the Proposal Due Date and Time.

All Proposals, including those submitted through electronic methods (if allowed), must contain Written

signatures indicating intent to be bound by the offer. If the Proposer submits multiple versions of the Proposal via different methods and does not explicitly direct OSU as to which version to use, OSU will determine which version of the Proposal will be used for evaluation.

OSU may not accept or consider late Proposals, modifications, or withdrawals except as permitted in OSU Standard 580-061-0120. Sole responsibility rests with the Proposer to ensure OSU's receipt of its Proposal prior to the Proposal Due Date and Time. OSU shall not be responsible for any delays or misdeliveries caused by common carriers or by transmission errors, malfunctions, or electronic delays. Any risks associated with physical delivery or electronic transmission of the Proposal are borne by the Proposer.

7.12 PROPOSAL OPENING

OSU may reject all Proposals for good cause, if upon OSU's Written finding that it is in the public interest to do so. Notification of rejection of all Proposals, along with the good cause justification and finding of public interest, will be sent to all who submitted a Proposal.

7.17 LEGAL REVIEW

Prior to execution of any Contract resulting from this Request for Proposal, the Contract may be reviewed by a qualified attorney for OSU pursuant to the applicable Oregon State University Standards, Oregon Revised Statutes and Oregon Administrative Rules. Legal review may result in changes to the terms and conditions specified in the Request for Proposal, Exhibits, and Addenda.

7.18 PROPOSAL RESULTS

A Written notice of intent to award will be issued to all Proposers. The Proposal file will be available for Proposer's review during the protest period at the PCMM Department. Proposers must make an appointment with the Administrative Contact to view the Proposal file. After the protest period, the file will be available by making a Public Records Request to OSU Office of General Counsel.
