By emphasizing authentic, experiential engineering experiences within the curriculum, students are equipped with the knowledge, skills, and passion to advance innovative solutions to today's most complex engineering challenges. Through nearly 30 unique degree programs at the graduate and undergraduate level, the COE produces top-notch engineers who are grounded in integrity, ingenuity, and a keen understanding of the inter-relatedness of global economies, cultures, and natural systems. The faculty collaborates across disciplines to leverage synergies in teaching, research, and innovation.

The COE is looking to obtain six (6) NVIDIA DGX-2 servers in order to provide a platform for students and faculty to conduct research requiring NVIDIA graphical processing units (GPUs).
