**1.2 Background.** Oregon State University in Corvallis, Oregon is located within the traditional homelands of the Mary's River or Ampinefu Band of Kalapuya. Following the Willamette Valley Treaty of 1855 (Kalapuya etc. Treaty), Kalapuya people were forcibly removed to reservations in Western Oregon. Today, living descendants of these people are a part of the Confederated Tribes of Grand Ronde Community of Oregon (<https://www.grandronde.org>) and the Confederated Tribes of the Siletz Indians (<https://ctsi.nsn.us>).

Founded in 1868 as Oregon’s land grant institution, OSU serves the state, the nation and the world as a premier 21st-century research university. OSU is committed to exceptional research, discovery, innovation and engagement — and to integrating its research and engagement mission with the delivery of a high-quality, globally relevant and affordable education for the people of Oregon and beyond. OSU is one of only two land, sea, space and sun grant universities in the U.S. and is the only university in Oregon to have earned both Carnegie Classifications for Very High Research Activity and Community Engagement.

The university’s 570-acre main campus is located in the city of Corvallis, a vibrant college town of nearly 58,000 in the heart of Western Oregon’s Willamette Valley. Corvallis consistently ranks among the safest, most highly educated and greenest small cities in the nation.

**1.3 Location.** 122 SW Waldo Place - This spot previously housed the first dormitory on campus called Alpha Hall, and then went on to be used by the pharmacy college. Alpha Hall was later split into two sections, one moved to 23rd and Orchard Street, and the other moved just north of what is now Bexell Hall, and then dismantled in 1922. The location was filled by the Dairy Building in 1912, which

was designed by architect John Bennes and is a Contributing Resource in the OSU National Historic District. It is constructed of brick bearing walls and wood framed floor and roof structures and much of the original historic structure is intact and it retains many of its original features and original character.

This building has been used by the College of Liberal Arts and known as Social Science Hall since 1951. It was renamed Gilkey Hall in 2001 for Gordon Gilkey, chair of the Art Department, and first dean of the College of Liberal Arts. Gilkey is also known worldwide for his printmaking and art collection, and for his efforts to save works of art during World War II. He helped establish the Oregon Arts Commission, the National Endowment for the Arts, and the National Endowment for the Humanities.

**1.4 Summary of Work.** This project will renovate the 2nd and 3rd floors of Gilkey Hall for use by OSU Counseling and Psychological Services (CAPS). The work will upgrade the building to meet current codes and OSU Design and Construction Standards, and will include upgrades to fire and life safety, HVAC, electrical, plumbing, building envelope and seismic systems, will reconfigure spaces to accommodate the needs of CAPS, and will install a new elevator. Exterior work will include changes to the site south of the building to provide a second accessible entry. The 2nd and 3rd floors will be unoccupied during construction. There may be some occupants in the building on the 1st floor during construction.

**1.5 Scope of Services.** The CM/GC will provide construction and construction management services for the Gilkey construction, and will provide construction consulting and cost estimating services during the design. The schematic design documents were issued on 11/9/2021, design development is scheduled to be complete 1/26/2022, and construction documents are scheduled to be complete 5/25/2022. The project design team is led by Clark Kjos Architects.

**1.6 Budget.** Construction estimate is \$5,000,000.00.

The written response to this RFP is the first in a **potential** two-step process in the selection of a firm for this Project. The Proposals received in response to this RFP will be evaluated by a selection committee with the top scoring firms being invited to advance to further evaluation steps including virtual Proprietary Discussions and Presentations/Interviews should the committee determine they

are necessary.

Presentations/Interviews will include a **Twenty-Five (25) minute** presentation period, immediately followed by a separate **Twenty-Five (25) minute** Q&A session.

After all of the Presentations/Interviews are completed, the members of the selection committee will discuss the strengths and weaknesses of the finalists. The members of the selection committee will then score the finalists based on all information received, presented and heard during the Presentations/Interviews. Optional Reference Checks may also be undertaken to aid in final scoring. Upon completion of final scoring, negotiations may commence with all Proposers submitting responsive proposals or all Proposers in the competitive threshold.

Final scoring of the Interviews will be **separate and not cumulative** from the short-listing.

**7.8 Evaluation Criteria.** The following items constitute the evaluation criteria for the selection committee to score Proposals. For ease in reviewing, provide tabs keyed to each of the following criteria:

**7.8.1 Firm Background and Experience (25 points)**

Describe your firm's history. Include information identifying the firm's annual volume, financial/bonding capacity for this project, and speak to the firm's stability in the market place. Explain relevant experience particularly with working on projects in historic buildings of similar scope for public entities. Information identifying the firm's strengths and weaknesses along with special capabilities that may be appropriate to this project will assist in the evaluation.

Describe your firm's experience with innovative sustainable design and construction practices as related to renovations of historic buildings. Demonstrate experience with OSU Requirements for Sustainable Development, LEED, Living Buildings, Net Zero Buildings or other advanced sustainable construction protocols. Provide examples of how your firm plans to reduce environmental impacts during construction and while operating on campus.

**7.8.2 Key Personnel (25 Points)**

Provide the names of the Project Manager, Superintendent, Project Engineer, and other essential personnel that you will commit to this project. Demonstrate their specific experience on projects of similar type, size and scope in historic buildings. Provide specific job experience as it relates to their experience with the CM/GC process and working under OSU or similar large public contracting agencies' contracting rules. Identify their length of employment with your firm and, if less than three years, recent prior firm(s), their responsibility on this Project, and their primary office locations.

**7.8.3 Proposed Project Schedule (15 Points)**

Prepare a preliminary project schedule that identifies milestones and duration for each proposed activity.

**7.8.4 Proposed Site Logistics and Site Safety Plan (10 Points)**

Describe your firm's approach to the management and administration of on-site construction activities for this project. Address mobilization, construction staging, site access, vehicular

circulation, pedestrian circulation, noise, material storage, onsite offices, security, site restoration, etc. Describe how you will keep construction workers, students, faculty, staff and visitors to campus safe while minimizing impact to the day-to-day operations of the campus.

Note that Gilkey Hall is located in a very busy location near the center of the OSU main campus. There is very little parking or space for storing tools and materials nearby and when classes are in session there is a lot of pedestrian traffic on all sides of the building. The CM/GC will be responsible for managing the site so that construction activities and site staging do not create hazards or impede other activities on campus.

In addition, provide the following safety record information. If you are a division of a larger corporation doing business both within the Pacific Northwest and outside the Pacific Northwest, your Proposal must reflect your Pacific Northwest experience and your corporate experience, separately.

- a) Experience Modification Rate (EMR) for each of the last five years.
- b) Lost Time and Recordable Incident Rates for each of the last five years.
- c) OSHA fines for each of the last five years (including any fines initially imposed, but later rescinded). Include a brief summary and amount of each fine.

#### **7.8.5 Workforce Diversity Plan (15 Points)**

(a) Provide a description and identification of Minority Business Enterprise (MBE), Women Business Enterprise (WBE), Emerging Small Business (ESB), or Disabled Service Veterans (DSV) certifications for your team and a description of your nondiscrimination practices. Provide historical information on MBE, WBE, ESB, or DSV Joint Ventures, subcontracting or mentoring plan, and utilization history for projects completed by your firm within the past three (3) years.

(b) Provide a narrative description of your current workforce diversity program/plan, and the plan for obtaining subcontracting, consulting, and supplier diversity for this Project. Include a description of the outreach program or plan, including a schedule of events and specific steps that will be taken to maximize broad based and inclusive participation and the plan to provide mentoring, technical or other business development services to subcontractors/subconsultants needing or requesting such services.

The CM/GC must perform the Work according to the means and methods described in the workforce plan described in its Proposal, unless changes are requested and approved in writing in advance by OSU or are required by applicable laws, ordinances, codes, regulations, rules or standards.

#### **7.8.6 CM/GC FEE/PRECONSTRUCTION SERVICES FEE (10 Points)**

- a. Provide your firm's **CM/GC Fee as a percentage of the Estimated Cost of the Work** for this Project. This fee shall cover, at a minimum, the Construction Management elements and Costs Excluded from Cost of the Work, as specified in the CM/GC Contract and specifically identified in the Direct Costs/ General Conditions Work Costs Matrix at Exhibit C ("**Matrix**"). Items identified in the Matrix as applicable to the CM/GC Fee shall not be

reimbursed as General Conditions Work (“GC Work”). GC Work means (i) that portion of the Work required to support construction operations that is not included within overhead or general expense but is specifically identified as GC Work as identified in the Matrix, and (ii) any other specific categories of Work approved in writing by OSU as forming a part of the GC Work. See the attached Sample CM/GC Contract for details.

The Matrix is included in the RFP as guidance in developing the CM/GC Fee and understanding which items will be considered a direct cost of the work or GC Work costs and which items are not reimbursable, but which will be recovered through the CM/GC Fee. After contract award and prior to construction work being performed under the first Early Work Amendment or the GMP Amendment, as applicable, the maximum not-to-exceed amount for General Conditions Work items for the Project will be established and set forth in the applicable amendment. **(Maximum of five (5) of the ten (10) Points available)**

- b. Provide a **separate Fee Proposal for Preconstruction Services** on a time and materials cost reimbursement basis up to a maximum not-to-exceed amount. **(Maximum of five (5) of the ten (10) Points available)**

**NOTE: Formula for scoring Fee Points will be as follows: Lowest Fee will receive full points with higher fees receiving proportionally lower points according to this formula: (Low Fee or Fee%/ Fee or Fee%) x Points Available**

## 7.9 Point Summary Table.

Criteria	Point Value
Firm Background and Experience	25 Points
Key Personnel	25 Points
Proposed Project Schedule	15 Points
Proposed Site Logistics and Site Safety Plan	10 Points
Workforce Diversity Plan	15 Points
CM/GC Fee/Preconstruction Services Fee	10 Points
