1.0 INTRODUCTION

1.1 Oregon State University (“OSU” and/or “Owner”) is conducting a competitive **ONE OR TWO-STEP** Request for Proposals (RFP) process to retain ONE (1) Firm to provide Construction Manager/General Contractor (CM/GC) services for the Whyte Track and Field Grandstand (*the “Project”*).

OSU WILL ONLY BE ACCEPTING SEALED PROPOSALS ELECTRONICALLY - Proposals are to be submitted to bids@oregonstate.edu by the Due Date/Time.

MANDATORY PRE-PROPOSAL CONFERENCE/SITE VISIT- A Mandatory Pre-Proposal Conference/Site Visit will be held at 10:00 AM PT on March 18, 2022 on-site with attendees meeting at the Westside of the Whyte Track and Field Complex (2200 SW Western Blvd. – Corvallis, OR)

Campus Safety Policies for Face Covering and Physical Distancing requirements related to Covid-19 are located at <https://covid.oregonstate.edu/safety-policies>.

All questions shall be submitted via e-mail to constructioncontracts@oregonstate.edu by the Question Deadline in order to be addressed. The email subject line should contain the Solicitation Number/Name and Firm Name.

1.2 Background. Oregon State University in Corvallis, Oregon is located within the traditional homelands of the Mary's River or Ampinefu Band of Kalapuya. Following the Willamette Valley Treaty of 1855 (Kalapuya etc. Treaty), Kalapuya people were forcibly removed to reservations in Western Oregon. Today, living descendants of these people are a part of the Confederated Tribes of Grand Ronde Community of Oregon (<https://www.grandronde.org>) and the Confederated Tribes of the Siletz Indians (<https://ctsi.nsn.us>).

Founded in 1868 as Oregon’s land grant institution, OSU serves the state, the nation and the world as a premier 21st-century research university. OSU is committed to exceptional research, discovery, innovation and engagement — and to integrating its research and engagement mission with the delivery of a high-quality, globally relevant and affordable education for the people of Oregon and beyond. OSU is one of only two land, sea, space and sun grant universities in the U.S. and is the only university in Oregon to have earned both Carnegie Classifications for Very High Research Activity and Community Engagement.

The university’s 570-acre main campus is located in the city of Corvallis, a vibrant college town of nearly 58,000 in the heart of Western Oregon’s Willamette Valley. Corvallis consistently ranks among the safest, most highly educated and greenest small cities in the nation.

1.3 Location. The Whyte Track and Field facility is located off Western Blvd (2200 Western Blvd), west of 15th Street, north of Hwy 34. The Whyte Track and Field Center opened in September 2012. The ribbon-cutting ceremony represented another milestone to the rebirth of the OSU track and field program. The program continues to grow after it was reintroduced to OSU Athletics in September 2004, following an 18-year hiatus. Phase I of the project, completed in 2012, features an International Association of Athletics Federation-certified Olympic-caliber polyurethane surface; a FieldTurf infield; a nine-lane track; high jump aprons; long jump, triple jump, pole vault and javelin

runways; shot put sectors; and dual discus rings. A hammer throw area was installed prior to the 2017 spring season as well as other infrastructure in front of the Phase II portion of the build out. Phase II includes the installation of grandstands, a press box; a scoreboard, and other amenities.

1.4 Summary of Work. OSU is seeking proposals from general contractors to act as Construction Manager/General Contractor (CM/GC) to complete the construction of the Whyte Track and Field project. This phase of improvements include: 1200 seat covered grandstand system, AV improvements, site concrete, associated civil work, new restroom building, and potentially upgrade the adjacent parking lot. This is 3rd phase of the project, completing the facility.

When selected, the CM/GC firm will be a part of a construction team composed of OSU, the architect and other Project consultants through the completion of the Project. The CM/GC firm must be skilled in construction, developing schedules, preparing construction estimates, performing value engineering, analyzing the constructability of alternative designs, studying labor conditions, understanding construction methods and techniques, selecting subcontractors, coordinating construction processes, managing construction activities within an occupied campus, and be capable of aiding OSU in procuring long lead equipment and materials. The CM/GC will be expected to communicate the construction-related aspects of the Project to all team members throughout the design and construction phases. In addition, the CM/GC will be familiar with the local labor and sub-contracting market and be capable of working and contracting directly with sub-contractors to generate viable pricing.

OSU will require the successful CM/GC to comply with OSU Design and Construction Standards, policies, rules and procedures requiring good faith efforts in subcontracting with emerging small businesses, and minority and women owned businesses in the Project. The CM/GC will provide construction and construction management services during this project's construction, and will provide construction consulting and cost estimating services during the design. OSU plans to have the CM/GC firm partner with a grandstand system vendor, for design and procurement.

NOTE: OSU has allocated \$25,000.00 for Preconstruction Services which will include early PIPC work planning, Grandstand design development, overall project schedule and estimating.

1.5 Scope of Services. Construction management and general contracting services to assist in construction of the balance of the project, including third party delegated design of the grandstand system. There is a large PIPC portion of the project that will need to be coordinated with the City of Corvallis. The approximately 1200 seat grandstand system will be covered or have partial cover, include a press box, AV interface with the track meet requirements, ADA compliant access, and fit our site constraints. 100% Construction documents are expected to be completed by early May 2022 (grandstand design excluded). See attached 50% CD Site plan.

1.6 Budget. Construction estimate is approximately \$5,000,000

The members of the selection committee will then score the finalists based on all information received, presented and heard during the Presentations/Interviews. Optional Reference Checks may also be undertaken to aid in final scoring. Upon completion of final scoring, negotiations may commence with all Proposers submitting responsive proposals or all Proposers in the competitive threshold.

Final scoring of the Interviews will be **separate and not cumulative** from the short-listing.
