## **2.0 INTRODUCTION AND BACKGROUND**

### 2.01 INTRODUCTION

OSU Procurement, Contracts and Materials Management is seeking Responsive Responsible Proposers to submit Proposals for three (3) Portable Chemical Storage Units for use aboard Regional Class Research Vessels (RCRVs). The three (3) Portable Chemical Storage Units will be based upon the requirements described in this RFP. Both National and International suppliers may submit Proposals.

The RCRV project is a National Science Foundation (NSF) funded three-ship acquisition, outfitting and testing for general purpose oceanographic research focused on the coastal ocean. The RCRVs, as part of the United States Academic Research Fleet, will be modern well-equipped vessels for essential coastal ocean research in regions of the continental United States and Alaska. Over an anticipated 35- to 40-year lifecycle, the vessels will serve as cost-effective platforms for multi-disciplinary ocean observations, sampling and process studies; as platforms for training future scientists, engineers, and educators; and for information sharing and public outreach about the basic sciences as well as national security and coastal community development and socioeconomics. Addition RCRV project information can be found at: <https://ceoas.oregonstate.edu/regional-class-research-vessel-rcrv>.

OSU is using a RFP formal competitive process to select a Proposer. The RFP is a best value procurement process which allows OSU to consider qualitative factors in addition to price or cost. OSU intends that this process result in a Firm Fixed Price (FFP) contract that provides quality Work, in a timely manner, at a reasonable price.

### 2.02 BACKGROUND

Oregon State University's College of Earth, Ocean, and Atmospheric Sciences (CEOAS) is an internationally recognized leader in the study of the Earth as an integrated system that includes the human dimension. It operates numerous state-of-the art laboratories; one oceanographic research vessel, the 54-foot coastal research vessel *Elakha*; operates the Endurance Array of the Oceans Observing Initiative; and is overseeing the construction of three new Regional Class Research Vessels for the US Academic Research Fleet.

OSU has entered into a fixed price contract with Bollinger Houma Shipyards, LLC to construct three Regional Class Research Vessels (RCRVs). The Vessel(s) are Federally funded via a Cooperative Agreement between OSU and the National Science Foundation (NSF), through NSF's Major Research Equipment Facility and Construction (MREFC) program. Upon completion of construction and delivery, the RCRVs will be owned by NSF and will function as part of the United States Academic Research Fleet. The vessels are under construction by Bollinger Houma Shipyards, LLC located in Houma, Louisiana.

The RCRVs are 199'6", 3300bhp Diesel-electric, highly flexible and highly maneuverable oceanographic research ships. They will be inspected by the United States Coast Guard, and classed by the American Bureau of Shipping for hull, machinery, dynamic positioning, automated controls, and limited operation in ice.

Each vessel will be located and operated by a competitively selected Operating Institution (OI) for each oceanographic region of the United States. OI1 will be OSU in the Pacific region, OI2 will be the East Coast Oceanographic Consortium led by the University of Rhode Island for the Atlantic Region, and OI3 will be the Gulf-Caribbean Oceanographic Consortium for the Gulf of Mexico and Caribbean region. All systems will need to be flexible to accommodate the operations in the diversity of all of these regions.

### 2.03 OREGON STATE UNIVERSITY

Founded in 1868, Oregon State University is a comprehensive, research-extensive, public university located in Corvallis. Oregon State is one of only two American universities to hold the Land Grant, Sea Grant, Space Grant and Sun Grant designations. Oregon State is also the only Oregon institution to have earned both Carnegie Foundation classifications for Highest Research Activity and Community Engagement, a recognition of the depth and quality of its graduate education and research programs.

Through its centers, institutes, Extension offices and Experiment Stations, Oregon State has a presence in all of Oregon's 36 counties, including its main campus in Corvallis, the Hatfield Marine Sciences Center in Newport and OSU-Cascades Campus in Bend. Oregon State offers undergraduate, master's and doctoral degrees through 11 academic colleges, the Honors College, Graduate School and online Ecampus, enrolling more than 35,000 students from every county in Oregon, every state in the country and more than 110 nations.

### **5.0 REQUIRED SUBMITTALS**

#### 5.01 PROPOSAL SUBMITTALS

It is the Proposer's sole responsibility to submit information in fulfillment of the requirements of this RFP. If submittals are not substantially compliant in all material respects with the criteria outlined in the RFP, it may cause the Proposal to be deemed non-Responsive.

Proposers should submit the following submittals a. through j. and should also include all information requested

under each submittal:

- a. Description of how the goods or services offered specifically satisfy the statement of work described in Section 3.
- b. Description of manufacturing facilities (including location and capability for simultaneous construction of two or more units.)

- g. **Exhibit E:** Certifications.
- h. **Exhibit F:** References.
- i. **Exhibit G:** Pricing Form filled out with a complete and itemized pricing of the goods or services requested, including shipping costs.
- j. **Exhibit H:** Submittal Checklist.

## **6.0 EVALUATION**

### **6.01 EVALUATION**

The stages of review and evaluation are as follows:

- a. **Determination of Responsiveness:**

OSU will first review all Proposals to determine Responsiveness. Proposals that do not comply with the instructions, that are materially incomplete, that do not meet the minimum requirements, or that are submitted by Proposers who do not meet minimum qualifications may be deemed non-Responsive. Written notice will be sent to Proposers whose Proposal is deemed non-Responsive identifying the reason. A Proposer has the right to appeal the decision pursuant to OSU Standard 03-010, Sec. 5.17.
- b. **First Stage Evaluation:**

Those Proposals determined to be Responsive will be evaluated using the required submittals. Proposals will be scored based on the evaluation criteria listed below. Scores will be used to determine Proposers within a competitive range. The competitive range will be made of Proposers whose individual scores, when viewed together, form a group of the highest ranked Proposers above a natural break in the scores.

OSU reserves the right to ask follow-up questions of Proposers during first stage evaluations. The questions will be for the purpose of clarification of information already contained in submittals and not be an opportunity to submit additional documentation or change existing documentation.

OSU may award after the first stage evaluation to the highest ranked Proposer without moving on to the second stage evaluation. If this option is selected, written notice of intent to award the contract to the highest ranked Proposer will be provided to all Responsive Proposers, or an award may be made directly without notice of intent in those instances of a single Responsive Proposer.

- c. **Second Stage Evaluation:**

If award is not made after the first stage evaluation, OSU may choose any of the following methods in which to proceed:

- i. Issue a written invitation to Proposers within the competitive range requesting an interview, presentation, site visit or any other evaluative method that is relevant to the goods or services solicited in the RFP. Written invitations will contain the evaluation criteria and scoring that will be used by the evaluation committee.
- ii. Engage in oral or written discussions with and receive best and final Proposals from all Proposers in the competitive range or all Proposers submitting Responsive Proposals. Discussions may be conducted for the following purposes:
  - Informing Proposers of deficiencies in their initial Proposals;
  - Notifying Proposers of parts of their Proposals for which OSU would like additional information; or
  - Otherwise allowing Proposers to develop revised Proposals that will allow OSU to obtain the best Proposal based on the requirements set forth in this RFP.

The conditions, terms, or price of the Proposal may be altered or otherwise changed during the course of the discussions provided the changes are within the scope of the RFP. Best and final Proposals will be scored based on the evaluation criteria listed below.

Points awarded in the first stage evaluation will not be carried to the second stage evaluation. If a second stage evaluation of all Proposers does not produce an award that is in OSU's best interest, OSU may return to the first stage evaluation to advance additional Proposers to a second stage evaluation.

- d. Additional Stages of Evaluation:  
If after completion of the second stage of evaluation, an award is not made, OSU may add another stage of evaluation using any of the methods outlined in the second stage evaluation above.
- e. Multiple Proposals or Options:  
Multiple Proposals or Options submitted by a Proposer will be evaluated and scored separately.

**6.02 EVALUATION CRITERIA**

Points will be given in each criterion and a total score will be determined. The maximum points available for each criterion are identified below.

<u><b>Evaluation Criteria</b></u>	<u><b>Points</b></u>
Proposal relative to the Statement of Work	40
Facilities	10
Proposed Schedule	10
Proposer's qualifications relative to the preferred requirements	30
Domestic preference compliance	10
Price of the goods or services	100
<b>Total</b>	<b>200</b>

**6.03 PRICING CALCULATION**

All Proposers will provide their total price for the construction and delivery of three Portable Chemical Storage Units. The Proposal that contains the lowest pricing to OSU will receive the maximum number of price points. A Proposal whose price is higher than the lowest submitted price will receive proportionately fewer price points, as demonstrated in the example below.

**Formulas:**

Three Portable Chemical Storage Units:

(Lowest Proposed Total Price for 3 Portable Chemical Storage Units / Proposer Total Project Price) X 100 points

**Example:**

Three Portable Chemical Storage Units:

Proposer A's price is \$450 (the lowest)

Proposer A is awarded 100 price points (the maximum)

Proposer B's price is \$500

Proposer B is awarded 90 price points ( $450/500 \times 100$ )

**Total Calculated Pricing points:** Proposer A = 100 points  
Proposer B = 90 points

In the event of a discrepancy between unit prices and extended (arithmetically calculated) prices, unit prices will prevail over extended prices.

6.04 NEGOTIATIONS

OSU may commence serial negotiations with the highest ranked Proposer or commence simultaneous negotiations with all Responsive Proposers within the competitive range. OSU may negotiate:

- a. The statement of work;
- b. The contract price as it is affected by negotiating the statement of work; and
- c. Any other terms and conditions as determined by OSU.

6.05 INVESTIGATION OF REFERENCES

- a. OSU reserves the right to investigate and to consider the references and the past performance of any Proposer with respect to such things as its performance or provision of similar goods or services, compliance with specifications and contractual obligations, and its lawful payment of suppliers, subcontractors, and workers.
- b. OSU further reserves the right to consider past performance, historical information and facts from references or sources chosen by OSU, which may be different or in addition to references provided by a Proposer.
- c. OSU may postpone the award or execution of the contract after the announcement of the notice of intent to award in order to complete its investigation.

6.06 CONTRACT AWARD

- a. Contract will be awarded to the Proposer who, in OSU's opinion, meets the requirements and qualifications of the RFP and whose Proposal is in the best interest of OSU. The contract award will be pursuant to a separate contract which will include terms and conditions substantially as set forth in the Sample Contract attached to this RFP as **Exhibit A**.
- b. OSU reserves the right to make award(s) by individual item, group of items, all or none, or any combination thereof. OSU reserves the right to delete any item from the award when deemed to be in the best interest of OSU. OSU also reserves the right to award none, one or multiple quantities of each line item.
- c. If you have questions, concerns, or proposed modifications regarding any of the terms and conditions contained in this RFP, including the attached form of contract in **Exhibit A**, you should address those during the time prescribed for Requests for Clarification or Change, see RFP Section 1.01.
- d. If a Proposer conditions its Proposal on any additional terms and conditions, which have not been accepted by a Written addendum to the RFP, the Proposal may be deemed non-Responsive.
- e. If a successful contract cannot be completed after award, OSU may conclude contract negotiations,

rescind its award to that Proposer, and return to the most recent RFP evaluation stage to negotiate with another Proposer(s) for award.

DOMESTIC PREFERENCE SUBMITTAL**

Pursuant to 2 CFR 200.322, OSU is providing a preference, during Proposal first stage evaluations, for the purchase, acquisition, or use of goods, products, or materials produced in the United States ("U.S. Materials".) In implementation of this regulation, OSU will grant 2 points, up to a maximum total of 10 points, for each instance in which the price of U.S. Materials included in the Proposal equals 10% of the total Proposal price. Proposers will be awarded whole points for every 10% that is achieved up to the maximum specified. Fractional points will not be awarded for amounts that are less than increments of 10%. Material categories will be combined to determine total percentage. For purposes of this section:

1. "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
2. "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

To receive preference points during Proposal first stage evaluations, Proposers must provide a signed copy of Exhibit D certifying the below information with their Proposal for any goods, products, or materials that are produced in the United States. **Failure to include a signed copy of Exhibit D with the original Proposal will result in Proposer not receiving domestic preference points.**

**Instructions:**

1. If you are using a U.S. Material in your Proposal, enter the percentage of total Proposal price (U.S. Material price / total Proposal price) that will be used in the "U.S. Materials Percentage" column.
2. If you are using a listed material in your Proposal, but you are NOT using U.S. Materials, enter 0% in the "U.S. Materials Percentage" column.
3. If you are NOT using a listed material in your Proposal, enter N/A in the "U.S. Materials Percentage" column.
4. If you enter 0%, indicating that you are NOT offering U.S. Materials, Proposer should include a letter from Chart 1, corresponding to a reason of why it is not feasible to provide U.S. Materials. Reasons can only be based on those included in Chart 1 and should include the documentation listed. **If Exhibit D and any applicable documentation required, are not provided in the original Proposal, and Proposer is selected for Contract award, Exhibit D and acceptable documentation MUST be provided prior to Contract execution.**
