1.0 INTRODUCTION

1.1 Oregon State University (“OSU” and/or “Owner”) is conducting a competitive **TWO-STEP** Request for Proposals (RFP) process to retain ONE (1) General Contractor to provide Construction Manager/General Contractor (CMGC) services for the UHDS Dining Support Facility (*the “Project”*).

OSU WILL ONLY BE ACCEPTING SEALED PROPOSALS ELECTRONICALLY - Proposals are to be submitted to bids@oregonstate.edu by the Due Date/Time.

MANDATORY PRE-PROPOSAL CONFERENCE/SITE-VISIT - A Mandatory Pre-Proposal Conference/Site-Visit will be held on January 21, 2025, at 1:00 PM PT at 855 NW 8th St., Corvallis, OR 97330. The gate will be opened prior for parking. Please do not park in the Samaritan lot.

All questions shall be submitted via e-mail to constructioncontracts@oregonstate.edu by the Question Deadline in order to be addressed. The email subject line should contain the Solicitation Number/Name and Firm Name.

1.2 Background. Oregon State University in Corvallis, Oregon is located within the traditional homelands of the Mary's River or Ampinefu Band of Kalapuya. Following the Willamette Valley Treaty of 1855 (Kalapuya etc. Treaty), Kalapuya people were forcibly removed to reservations in Western Oregon. Today, living descendants of these people are a part of the Confederated Tribes of Grand Ronde Community of Oregon (<https://www.grandronde.org>) and the Confederated Tribes of the Siletz Indians (<https://ctsi.nsn.us>).

Founded in 1868 as Oregon’s land grant institution, OSU serves the state, the nation and the world as a premier 21st-century research university. OSU is committed to exceptional research, discovery, innovation and engagement — and to integrating its research and engagement mission with the delivery of a high-quality, globally relevant and affordable education for the people of Oregon and beyond. OSU is one of only two land, sea, space and sun grant universities in the U.S. and is the only university in Oregon to have earned both Carnegie Classifications for Very High Research Activity and Community Engagement.

The university’s 570-acre main campus is located in the city of Corvallis, a vibrant college town of nearly 58,000 in the heart of Western Oregon’s Willamette Valley. Corvallis consistently ranks among the safest, most highly educated and greenest small cities in the nation.

University Housing & Dining Services (UHDS) recognizes the importance of learning both in and out of the classroom and supports the concept of education as an individual as well as a community experience. UHDS strives to provide students, faculty, staff, and guests with safe, economical, convenient, and comfortable living and dining options, and the department works to maintain the highest educational and service standards. UHDS houses over 5,400 students and offers a variety of living and dining options in 15 residence halls, three dining centers, 10-14 retail and coffee shop locations across campus, a market, and apartments. UHDS is an auxiliary enterprise with an annual budget of over \$90 million dollars which is funded solely by customers who use our services — we receive no State or General fund allocation.

UHDS is committed to an appreciation for diversity, and fosters an open, respectful and enjoyable living, learning and working environment. A personal and professional commitment to providing excellent customer service and creating inclusive environments is a core value of University Housing and Dining Services.

Our dining mission: the UHDS Culinary Team is committed to providing an inspirational culinary experience through a food-first philosophy: integrating nutrition, quality, and passion in food. This team is dedicated to sustainable practices, food innovation, and supportive work environments. Food is a voice to express these values along with educating students, staff, guests, and the OSU community.

1.3 Location. 855 NW 8th Street, Corvallis, OR 97330. Site Map included in Exhibits.

1.4 Summary of Work. OSU is seeking proposals from general contractors to act as Construction Manager/General Contractor (CM/GC) for the Construction of a new Dining Support Facility at an off-campus location that will provide a commissary kitchen and consolidated bakery operation for University Housing & Dining Services (UHDS).

Oregon State University recently completed a comprehensive exercise to develop a vision to establish a decision-making framework to guide the future 10-year planning effort for advancing the student experience in its housing and dining programs. Brailsford & Dunlavey, Inc. partnered with Mahlum Architects and PAE Engineers to form the project team that collaborated with campus stakeholders including University Housing & Dining Services (UHDS) to produce the Corvallis Campus Housing and Dining Vision. The Vision outlines a plan to modernize inventory, diversify housing options, enhance community and grow housing inventory.

To support the expansion of campus dining and catering UHDS has purchased an approximately 1.4-acre site that formerly was an industrial food production facility located within a 10-minute drive from most places on campus. The vision for this site is to develop an offsite commissary kitchen, catering operation, and to consolidate UHDS centralized bakery operations on this site to increase the efficiency of on-campus dining locations and to ensure consistent and high-quality cuisine. It is anticipated that the facility will be approximately 20,000 to 30,000 square feet and support 35 FTE. The construction cost is anticipated to be \$13 million. It is OSU's intent to have the facility come online in the spring of 2027 in advance of UHDS bringing new residence hall and dining buildings online.

Key goals of the Project include:

1. Provide a cost-effective building solution that allows flexibility and opportunities for future modification and expansion.
2. Create innovative, flexible, and collaborative spaces solution that will allow dining services to standardize processes, and provide consistent, high quality food products for OSU campus.

OSU is looking to contract with a CM/GC for this Project, which will include Pre-Construction services as well as construction and construction management services.

NOTE: OSU has allocated \$175,000.00 as an initial allowance for Pre-Construction Services through Schematic Design with level of effort and rates to be determined by time of contract execution. As part of the Presentation/Interview, shortlisted teams will be asked to provide a listing of current

staff rates for all team members that will be charged to the project for the pre-construction and construction phases that will include annual increases anticipated throughout all phases of the project.

1.5 Scope of Services. When selected, the CM/GC firm will be a part of a Project Team composed of OSU, the Design Team and other Project consultants through the completion of the Project. Scope of services will include a significant Pre-Construction effort working with OSU and the Design Team. OSU is currently completing the selection of the Design Team, with the design effort anticipated to begin in March of 2025.

Key components of Pre-Construction CM/GC scope of work are the following:

- Collaborate with the OSU and the Design Team during the design of the building and site. This phase will also include creating best strategy and documentation needed for demolition of existing structures.
- CM/GC will provide construction consulting and cost estimating services and will review the design at appropriate intervals, such as Schematic Design, Design Development, and 50% Construction Documents, through the lens of constructability, cost and schedule.
- CM/GC will develop a construction schedule to best meet OSU's goals for Project Completion.
- CM/GC should comply with OSU Design and Construction Standards, working with the Design Team and OSU to suggest any deviations from these standards that would be in the best interest of the Project and OSU.
- CM/GC will participate in the programming/conceptual design effort, advising on types of systems, construction methods, cost, feasibility, schedule and sequencing as OSU and the Design Team evaluate different programming mixes and research infrastructure types for the building.

The CM/GC firm must be skilled in construction including various building systems, developing schedules, preparing construction estimates, performing value engineering, analyzing the constructability of alternative designs, studying labor conditions, understanding construction methods and techniques, selecting subcontractors, coordinating construction processes, managing construction activities within an occupied campus, and be capable of aiding OSU in procuring long lead equipment and materials.

The collaboration with OSU and the Design Team is of the utmost importance in order to create the most cost and time efficient building. The CM/GC will be expected to communicate the construction-related aspects of the Project to all team members throughout the design and construction phases. In addition, the CM/GC will be familiar with the local labor and subcontracting market and be capable of working and contracting directly with subcontractors to generate viable pricing.

Following completion of Pre-Construction, the CM/GC will provide construction and construction management services during this project's construction following execution of an amendment (Early Work or GMP/Lump Sum) as applicable for construction services.

1.6 Budget. \$13M for building construction costs not including equipment costs.

Optional Reference Checks may also be undertaken to aid in final scoring. Upon completion of final scoring, negotiations may commence with all Proposers submitting responsive proposals or all Proposers in the competitive threshold.

Final scoring of the Interviews will be **separate and not cumulative** from the short-listing.

(b) Provide a narrative description of your current workforce diversity program/plan, and the plan for obtaining subcontracting, consulting, and supplier diversity for this Project. Include a description of the outreach program or plan, including a schedule of events and specific steps that will be taken to maximize broad based and inclusive participation and the plan to provide mentoring, technical or other business development services to subcontractors/subconsultants needing or requesting such services.

The CM/GC must perform the Work according to the means and methods described in the workforce plan described in its Proposal, unless changes are requested and approved in writing in advance by OSU or are required by applicable laws, ordinances, codes, regulations, rules or standards.

7.8.6 FEE PROPOSAL (10 Points)

Provide your firm's **CM/GC Fee as a percentage of the Estimated Cost of the Work** for this Project. This fee shall cover, at a minimum, the Construction Management elements and Costs Excluded from Cost of the Work, as specified in the CM/GC Contract and specifically identified in the Direct Costs/ General Conditions Work Costs Matrix included in Exhibit 2

(“**Matrix**”). Items identified in the Matrix as applicable to the CM/GC Fee shall not be reimbursed as General Conditions Work (“**GC Work**”). GC Work means (i) that portion of the Work required to support construction operations that is not included within overhead or general expense but is specifically identified as GC Work as identified in the Matrix, and (ii) any other specific categories of Work approved in writing by OSU as forming a part of the GC Work. See the attached Sample CM/GC Contract for details.

The Matrix is included in the RFP as guidance in developing the CM/GC Fee and understanding which items will be considered a direct cost of the work or GC Work costs and which items are not reimbursable, but which will be recovered through the CM/GC Fee. After contract award and prior to construction work being performed under the first Early Work Amendment or the GMP Amendment, as applicable, the maximum not-to-exceed amount for General Conditions Work items for the Project will be established and set forth in the applicable amendment.

NOTE: Formula for scoring Fee Points will be as follows: Lowest Fee will receive full points with higher fees receiving proportionally lower points according to this formula: (Low Fee or Fee%/ Fee or Fee%) x Points Available

7.9 Point Summary Table.
